

The Bookshare Success Story

Vijayashree Dilip

Benetech was founded in 1989 to create new technological solutions that serve humanity. Bookshare is one of Benetech's initiative to help address the challenge of accessible books.

Bookshare is an online digital library for the print disabled built by people who use the library. From a humble beginning Bookshare has now grown to serve more than 100000 members. This success story can be repeated in every country across the globe.
